ONE in five of the citizens of Utah oppose THE late New Haven manufacturer after whom the Yale lock is named left an estate of

\$8,000,000. THE camels introduced into Arizona some sixteen years ago have so increased in num-bers as to become troublesome, and it is pro-

posed to hunt them. A SUNFLOWER which grew without any special care in the garden of Rev. E. B. Palmer of Ipswich. Mass, measured thirteen inches across the disc and weighed four and one-half

Tax New York police are accused of following young couples in Central Park, threatening their arrest and accepting money to release them. Portions of the park are said to be as bad as disorderly houses

THE postmaster-general at Washington has requested the post-office department at Ottawa, Ontario, to furnish him with a full account of the working of the post-office savings bank. The request has been complied with.

The people of Montreal, Canada, are already talking of repeating next winter the ice carnival, which was so great a success last year, making the ice palace again a leading feature, but its proportions two or three times as large.

COLONEL GEORGE KNAPP, the veteran pro-prietor of the Missouri Republican, is dead. He left two months ago for Kissingen Springs at Bavaria, Germany, in search of his health. He leaves a large family of children and a for-tune variously estimated at from \$500,000 to \$2,000,000.

In New York, eastside newsdealers agreed In New York, east-side newsdealers agreed to sell the two-cent city papers at from eighteen to twenty cents a week. They are indignant at the reduction in price, which cuts down their margin of profits. West side dealers strike against the reduced commissions, which bids fair to spread. This action may check the demoralization in rates and even bring about the restoration of the old wices. restoration of the old prices. It is expected at the pavy department that

It is expected at the navy department that Lieutenant Harper, who was sent to Siberia to assist in the Jeannette search, and who was afterward ordered to bring to America the bodies of Lieutenant De Long and his compades, will leave irkoutsk, the capital of Eastern Siberia, about the first of November next, and will reach the United States with the podies some time in January.

An Indianapolis newspaper reports these remarks of an aged colored man to his little grandson, who was disposed to laugh at the appearance of a procession of veterans passing by: "Dont ve laugh at dem soldier mens, son; dey don't look so mighty fine now, but when ye old grandaddy fust saw en comin down vander in South Carolina dey looked mighty like angels ob de Lord. Dey don't step so spruce and spry as dey used to, but dey brought d'liberance to me and mine. Don't do it again, son"

Two weeks ago General W. S. Hancock went to Sandy Hook to witness some experiments in gunnery. The weather was very rough, and the small government vessel was rudely thrown about by the waves. In one of the lurches of the boat General Hancock fell and bruised his right knee. He remained three days at Sandy Hook in bad weather. He returned to Gover-nor's Island in bad health, and has been siling ever since. There are some signs of a gather-ing in the injured knee, and Dr. Janeway, the post surgeon, is endeavoring to dissipate it.

NOMINALLY, a car load is 20,000 pounds. NOMINALLY, a car load is 20,000 pounds. It is also seventy barrels of salt, seventy of lime, ninety of flour, sixty of whiskey, 200 sacks of flour, six cords of soft wood, eighteen to twenty head of cattle, fifty or sixty head of hogs, ninety to one hundred head of sheep, 9,000 feet solid boards, 18,000 feet of flooring, 40,000 shingles, one-half less of lumber, one-tenth less of joist, scantling and other large timbers, 340 bushels of wheat, 400 of corn, 680 of oats, 300 of fluxseed, 366 of apples, 340 of Irish potatoes, 360 of sweet potatoes, and 1,000 of bran.

A Great Railroad Work.

Negotiations were completed last week which appear to promise the prompt beginning of construction of the New York and Boston Inland railway. This is the line which has been chartered in Massachusetts, Connecticut and New York, and is to be nearly an air line between the two cities, one hundred and nighty miles long, or about forty miles shorter than any existing line, to be built without a draw-bridge or a crossing at grade, and to run between the two cities, without stops, in three and a half hours. The Hon. H. A. Blood, former manager of the Boston, Clinton and Fitchburg railroad, is the chief projector, and manager of the New York Construction Company which is chartered to build the line. After having completed the preliminary work he went abroad to secure the capital required, on went abroad to secure the capital required, on | E E Andrews, Berlio, ten va want arroad to seem the capital required, on the best terms. In this, it is now stated, he was fully successful, and a contract has been concluded with Samuel H. Linn of St. Peters-burg, Russia, and W. F. Mason McCarty of Moscow. Russia, having their place of business in New York city under the firm name of Linn in New York city under the firm name of Linn & McCarty. These gentlemen have furnished evidence that they have the capital needed and have given satisfactory bonds. They have contracted to begin the work within three months from the date of the instrument, September 12, 1883, and to complete it within three years. The amount of capital required of Messrs. Linn & McCarty under this contract is about \$30,000,000. The work of construction will begin next month at both ends of the line. Mr. McCarty is a civil engineer by profession. will begin next month at both ends of the line. Mr. McCarty is a civil engineer by profession, and now holds a commission as colonel in the engineer corps of the Russian army. Mr. Linn has also had experience in connection with railroad enterprises in Russia. Both are natives of the United States, and during a few years' residence in Russia, it is said, have largely increased their fortunes. The new line will enter Boston over the Boston and Providence railroad from Central station, in West Roxbury, about three miles out, and will enter New York over the Harlem railroad from Mount New York over the Harlem railroad from Mount
Vernon station. The Connecticut river will be
crossed by a suspension bridge at Middletown
The road will be so nearly straight that the line
on a map will show scarce any curves. At
some points thirty to forty miles are run on
tangents. Messrs. Blood, Linn and McCarty are
now on a tour of inspection of the line, with a
corps of engineers. The work will include
several tunnels and much heavy work.

CLASS VIII.—DAIRY.

A Belated Salute—Two hours after the train which took Tammany to Buffalo had left the Grand Central depot in New York, there arrived a delegation from Harlem with a ten-pound cannon mounted on a grocery wagon, and a permit from Mayor Edson to fire the piece off. The wagon had stopped too many times on the way down, and the three artillerists in the wagon were received with a roar of dissatisfaction by two or three hundred voters from Harlem who had come earlier. The wagon with the canon and the artillerists in it, made a tour of the lower wards. At one o'clock the procession arrived in front of Johnny Hanlon's saloon at 6 Mulberry street. One of Charles Cooper & Co.'s double trucks was standing near by. The artillerists were elated. One of them fired the cannon without stopping to take it out of the wagon. He was knocked heels over head into the street. The knocked heels over head into the street. other two artillerists fell flat in the wagon box. The borse dropped in his tracks and bled at the nose. One of Cooper's truck horses fell down with astonishment. Glass fell out of the down with astonishment. Glass fell out of the windows of Cooper's chemical warehouse at 194 Worth street. Policemen fell on the artillerists and lugged them off to the Tombs. B. Fogarty's borse got up and dragged the wagon and the cannon after. "We did not know it was loaded," the prisoner said. They gave their names as John Denny, 123 East 139 h street. John Aldrich and Edward Daly. 174 East 1024 street, and they gave ball in \$50 each for trial at the special sessions. Then they got into B. Fogarty's wagon and drove up with the cannon frowning over the tall of

N. W. Aver & Son's American Newspaper Annual for 1883 contains a carefully prepared list of all newspapers and periodicals in the United States and Canada, arranged by states in geographical sections, and by towns in alphabetical order. In this list also is given the name of the paper, the issue, general characteristics, year of establishment, size, circulation, and advertising rates for ten lines one month. It gives the population of the United States, and of each state, territory, county and county-seat, the chief cities and towns, and of nearly every place in which a paper is published, from the census of 1880. Also similar information concerning the Dominion of Canada, from the census of 1881. Complete in ali its departments, thorough in its details, giving just the information needed, and only that, simply arranged, easily referred to, carefully compiled—it is a model work of its kind. Price \$3, carriage paid. Published by N. W. Ayer & Son, Philadelphia, Penn. N. W. AYER & Son's American Newspaper

The Cook's Dilemma.

"Two teaspoonfols of cream of tartar and one of soda to a quart of flur" was formerly the standing direction in every kitchen for making light biscuit, cake, etc. It has been found of late that the old rule won't work, double the quantity of cream of tartar being frequently required to produce the former result, and even then, owing to the great variation in strength of the best cream of tartar that can be purchased at the stores, uniform results can no longer be depended upon in its use.

its use.

The cause of this inferiority of modern cream of tarrar is explained by the Massachuseits State Board of Health, and also by the New York State Board of Health, which, in a recent examination of twenty seven samples of cream of tartar, claimed by dealers to be of the best quality, found them adulterated with alum, terra alba, phosphate of calcium, etc., from three to ninety-three per cent. Five samples were adulterated with terra alba to such an extent that they were really terra alba with a little cream of tartar added. In the soda examined, from seventeen per cent of carbonate of lime to twenty-five per cent of carbonate of lime to twenty-five per cent of carbonate of lime to twenty-five per cent of ground gypsum were found. Of course it is impossible to produce light or wholesome bread with such stuff as this for a leavening material, and the best cooks, if relying mon its use, must frequently fail in their work. The old rial, and the best cooks, if relying upon its use, must frequently fail in their work. The old formula, therefore, no longer to be relied upon, must give way to new methods.

Science, fortunately, comes to the aid of the cook in this dilemma with the ever-ready bak-

ing powder; but here again the greatest care is necessary in selecting a baking nowder, to avoid one that may not only spoil the work of the cook but will make the cookery produced an instrument of danger to the health. Most of the baking powders and bread preparations of the market are made either from the very gream of tartar above described from alumnters. of the market are made either from the very cream of tartar above described, from alum, which is poison, or from phosphates derived by disgusting processes from the solution of old bones in sulphuric acid, and hence their use is attended with the same inconvenience and dangerous results that follow the use of adulterated cream of tartar. The only way to overcome these difficulties would seem to be in the selection of a baking powder of a thoroughly well-established reputation, whose absolute purity, wholesomeness, and effective power as a leavening agent have been confirmed beyond contravention. The Royal Baking Powder meets this want more nearly than any other, and has been recommended by than any other, and has been recommended by the government chemist as the most accept-able and perfect substitute for the old-fashioned cream of tartar and soda. It is undoubtedly pure, and its merits have given it a sale prob-able equaling that of all other baking powders combined. Its manufacturers have an advantage over all others in possessing facilities for obtaining pure materials. They refine their cream of tartar direct from the imported crude grape acid by means of patented processes, ex-clusively their own, by which the cream of tar-tar is rendered absolutely pure and uniform in strength. In addition to this, they employ a number of expert chemia's who thoroughly test every pound of ingredient used, and ad-mit no material into the Royal Baking Powder compound, until they have demonstrated in mit no material into the Royal Baking Powder compound until they have demonstrated it chemically nure. As a consequence, the action of this rowder is always uniform, as well as of the highest degree of power, and never fails to produce light, sweet, wholesome and pelatable bread, biscuit or cake. With its universal market, and the great magnitude of its sales, this company finds it to its interests to adopt these extraordinary methods, which no baking powder maker, whose market is limited to a single state or locality, can afford.

PEORIA, Ill., has only forty thousand inhabi-tants, but there is one respect in which it is the biggest city in the land. There is no other from which the government receives so large an amount of internal revenue. Thirteen im-mense distilleries make this the centre of whis-key manufacture. The tax is ninety cents a gallon. The largest distillery is under contract to send every drop of its product to France, to be used in the native wines of that vine-clad be used in the native wines of that vine-clad

The complicated diseases brought on by in-tense study, thought, care, anxiety, etc., are often of the most serious nature. Heed such symptoms as less of memory, universal lassi-tude, heart disease, kidney complaints, liver troubles and a general breaking down of health and strength. When thus afflicted, when the least exertion causes great fatigue, when life seems a burden, use the reliable strengthening tonic, Brown's Iron Bitters. It will afford you tonic, Brown's Iron Bitters. It will afford you

DR. W. B. PRATHER, Florence, Ga., says: "Brown's Iron Bitters have given satisfaction in every instance I have known it used." DR. I. F. MUNDY, Owenton, Ky.: "I found Brown's Iron Bitters one of the best tonics and have prescribed it frequently."

A STRANGE bog disease prevails in the Big Mismi valley, Ohio. It has the nature of ty-phoid pneumonia, and causes speedy death. CAN'T GET IT.-Diabetes, Bright's disease, kidney, urinary or liver complaints cannot be contracted by you or your family if Hop Bit-ters are used, and if you already have any of these diseases Hop Bitters is the only medicine that will positively cure you. Don't forget this, and don't get some puffed up stuff that

Business Motices.

DON'T DIE IN THE HOUSE, "Rough on Rats," Clears out rats, mice, flies, roaches, bed-bugs. Fifteen cents.

THEY give perfect satisfaction, say the drug-gists who sell N. K. Brown's Iron and Quinine Bitters. Sold in Montpeller by C. Blakeley.

FLIES, roaches, auts, bed-bugs, rats, mice, crows, chimunks, cleared out by "Rough on Rats." 15c.

"Dr Benson's Celery and Chamomile Pills cured my wife immediately of severe neuralgia." H. M. Cocklin, Shepherdtown, Penn. Fifty cents at druggists.

Mr. E. C. Andhew, a correspondent residing at 190 Portland street, Boston, informs us that "Ellis's Spavin Cure is an invaluable and cer-tain cure for Spavin." I have been greatly annoyed with catarrh, severe pain in my head and discharges into my throat. My sense of smell was much impaired. By a thorough use of Ely's Cream Balm I have entirely overcome these troubles. J. B. Case, St. Denis Hotel, New York.

For six cents we will send you Dr. Kaufmann's great Medical Work; 100 pages, colored plates from life. The most valuable adviser ever published, to any address on receipt of two three-cent stamps to pay postage. Address A. P. Ordway & Co., Boston, Mass.

HAY FEVER.—From Col. C. H. Mackey, 33d Iowa Infantry: "To persons afflicted with catarrh I would state that I have derived more benefit from Ely's Cream Balm than anything else I have ever tried. I have now been using it for three months and am experiencing no trouble from catarrh whatever. I have been a sufferer for twenty years. C. H. Mackey, Sigourney, February 22, 1882."

"Buchu-Paira" Quick, complete cure, all an-noying Kidney and Urinary Diseases. One dollar.

"My horse was lame and could scarcely walk," says J. G. Gillgan, corner of Haverhill and Causeway streets, Boston. "Ellis's Spavin Cure has, however, completely cured him." Next.

The first real skin cure ever discovered was Dr. Benson's Skin Cure. It cures all rough and scaly skin diseases and makes the skin smooth and healthy. It is an ornament to any lady's toilet.

DR. PIERCE'S "Pleasant Porgative Pellets" are sugar-coated and inclosed in glass bottles, their virtues being thereby preserved unim-paired for any length of time, in any climate, so that they are always fresh and reliable. No cheap wooden or pasteboard boxes. By druggists.

UGLY and hateful, but I couldn't help it. Everything went wrong with me, and I thought I hadn't a friend in the world. Dyspensia caused this and for months I couldn't est anything and just suffered in misery till I used Sulphur Bitters, three bottles cured me.—D. Lewis, 22 Bowdoin street. Boston.

HOOD'S SARSAPARILLA is designed to meet HOOD'S SARSAPARILLA is designed to meet the wants of those who need a medicine to build them up, give them an appetite, purify their blood, and oil up the machinery of their bodies. No other article takes hold of the system and hits exactly the spot like Hood's Sarsaparilla. It works like magic, reaching every part of the human body through the blood, giving to all renewed life and energy. One dollar a bot-tle; six for \$5.

A CLENGYMAN, whose life was almost a burden to him, from a long course of suffering he had undergone, through that dreadful disease, catarrh, traveled through the East, seeking from the old and skilled doctors of Arabia, some remedy for this terrible disease. He some remedy for this terrible disease. He was fortunate enough to come across one, who prescribed for him, and who, after he was cured, gave him the recipe, which has since saved so many. The reverend divine, on his death-bed, bequeathed the recipe to a friend, who is willing to send it free of charge, to all sufferers who desire it. Address, J. Lawrence, 250 Schermerhorn St., Brooklyn, N. Y.

SKINNY MEN. "Wells' Health Renewer" restores health and vigor, cures Dyspepsia, Impotence. One dollar.

WILLIS LANE'S ESTATE.

STATE OF VERMONT, Washington District as.
In Probate Court, held at Montpeller, in and for said
District, on the 4th day of Sentember, A. D. 1882:
Erastin Batchelder, Administrator with the will annexed of the estate of While Lane, late of Marshindal, it
said District, deceased, inskes application to said Court
for Ileense to sell all of the real estate of Marshindal, it
said District, deceased, inskes application to said deceased,
situated in the state of Vermont, excest the dower
therein, but including the homestead and reversion of
the dower, representing that the said entereor, except the
homestead, is necessary for the payment of the claims of
said deceased and the expenses of administration of his
estate, and that a sale of the homestead would be bense
feat to the widow of said deceased. Whereupon, it is
ordered by said Court, that said application be referred
to a session thereof, to be held at the Probate office in
said Montpeller, on the 5th day of October, A. D. 1882,
for hearing and decision thereon; and, it is further ordered, that all persons interested be notified hereof, by
publication of notice of said spolication and order thereon, fibre weeks successively in the Vermont Watchman &
State Journal, a newspaper published at Montpeller, and
which circulates in the neighborhood of those interested, before said time of hearing that they may appear
at said time and place, and, if they see cause, ofject
therefor.

By the Court.—Attest.
